

# Adivasi Motive

## Key Chain

### ABOUT US

(ADIVASI, MAHARASTRA)AYUSH group concept created by Maharashtra tribal professionals and students in 2003 to help tribes (Adivasis) for their future based on the governing principle of 'contribute back what we got from our community'. AYUSH group started online activities in 2006 at different social networking websites. AYUSH is an independent, non-political group owned by tribal people, in which members work on voluntary-base-- VISION & MISSION --Our vision --

Nowadays tribes everywhere around the world Adivasi have to face new challenges. If we cannot find solution, often the poverty means our future, our customs and culture are dissolving in the new world's waves and finally the tribe may be disappearing.

As well-educated tribesmen we have recognized our community's poor conditions in rural areas. Especially the young generation suffers from the lack of facilities, as they are downtrodden and far away from the circulation of modern life. Many talents have been perishing due to the lack of guidance and/or financial conditions.

But we know that there is no tree which can live without their roots. That's why we would like to keep pace with the changing world, but with maintaining our traditions

AYUSH vision is "ensuring tribal success"

Ensuring Tribal success =

educational success + employment success + business success + career success + youth success + peoples success + community success + art success + cultural success + tourism success + knowledge success + technological success + health success + unity success +

so "ensuring tribal success" means success of tribals in different fields.

Our Mission --

A -- Ambition of Growth

Y -- Youth Power

U -- Unity of Adivasi

S -- Surety of Support

H -- Helping Hand Always
